GENERAL VESSEL INFORMATION:

The cargo vessel **ALEXA**, registered in St. Vincent and the Grenadines, has for most of July been anchored at Københavns Red. The crew has left the vessel due to lack of payment of wages and lack of provisioning. On this basis, the ship has been arrested. The Danish Maritime Authority detained the vessel until a new competent crew is on board. The DMA has been on board the vessel after the crew left and assesses that, aside from the lacking crew, the ship meets security requirements. There is no cargo on board.
