GENERAL VESSEL INFORMATION:

Information has become available about Neptune Shipping Line, a new firm that will begin service next month linking Australia, New Zealand and Fiji. The line has been formed by former Sofrana Unilines personnel and will carry breakbulk and container cargoes. Neptune Shipping Line has bought two vessels, the **CAPITAINE WALLIS** (French-registry, **formerly the (P)?Denhier**) and the CAPITAINE FEARN (French-registry 3,478-dwt dry cargo ship built in 1979), both 150-TEU capacity vessels than can carry 1,500 tons of breakbulk. **CAPITAINE WALLIS** will call at Lautoka and Suva, from Auckland, and Tauranga, New Zealand, every 14 days. Scheduling problems have caused Pacific Direct Line to charter **CAPITAINE LA PEROUSE** for the Tauranga-Auckland-Noumea-Wallis-Futuna service.

Jul 2001 **CAPITINE LA PEROUSE** was chartered by Pacific Direct Line for the Tauranga-Auckland-Noumea-Wallis-Futuna service. She was formerly **CAPITAINE WALLIS**.

2001 redelivered by Pacific Direct Line to Neptune Shipping.
