PCL will deploy three sister vessels in the PANZ service: **IVS NIGHTINGALE** (built 2005); **IVS NIGHTJAR** (built 2005) and **IVS HUNTER** (built 2001). Hence PANZ will be able to guarantee customers a regular scheduled monthly service. All three new vessels are 32,000 DWT modern handy size loggers with 30 tonne cranes, box shaped holds, and a 14 knot service speed. The **IVS NIGHTINGALE** will commence the new service with effect mid March 2007. These vessels will be directly employed in the PANZ service until early 2009 when PCL intends to replace them with 4-5 36,000 DWT modern handy size loggers from their current new building programme.
