GENERAL VESSEL INFORMATION:

2010

The MAERSK WOLFSBURG (1,713 teu) is delivered

Maersk Line has taken in charge the MAERSK WOLFSBURG, sixth of seven ships of 1,713 teu ordered by Cido Shipping at the China Shipbuilding Corp. (CSBC - Taiwan) with a long term charter to Maersk. These ships are part of a wider order by Cido of a total of 17 such ships at CSBC between February 2005 and mid-2006 (some of which since sold).

2017:

MPC Container Ships AS purchases ten medium sized containerships

MPC Container Ships AS, an Oslo-based containership investment vehicle, has entered into a commitment to acquire a fleet of ten container vessels for a total purchase price of \$130 M. This acquisition coincides with MPC's recent successful completion of a \$175 M private placement to support its fleet expansion.

The ships are understood to be acquired from South Korean owner Cido Shipping, who would then exit from the container shipping business. The ten container vessels will add to the 26 containerships of 960 - 2,900 teu that MPC Container Ships AS has acquired since its creation in April.

The Cido containership fleet fits within MPC's targeted size range of 1,000-3,000 teu. Besides a 2,824 teu vessel of the 'Mipo 2800' type, it includes nine 1,713 teu units of the 'CSBC 1700' type, fully geared and fitted with 377 reefer plugs.

MPC Container Ship AS was formed in April 2017 by German company MPC Capital AG with a view to building up a fleet of 1,000-3,000 teu container vessels for the charter market. Once the new transaction is concluded, MPC Container Ships AS will control a fleet of 36 vessels totalling 70,800 teu. Many of these vessels feature high-reefer capabilities. These investments were made possible after the company successfully raised private and bond placements worth a total of \$276 M.
