GENERAL VESSEL INFORMATION:

The crude oil tanker MV **NIVOSA** is the only Australian registered ship that journeys regularly to Middle Eastern ports and could be directly or indirectly targeted in this region as part of al-Qa'ida's campaign against the oil and gas industry and/or Australian interests.

www.dotars.gov.au/transport/security/maritime/pdf/Oil_Gas_Risk_Context_Statement.pdf

Shell Australia's **NIVOSA** has been sold to a company called SBM Conversions in Singapore. She will probably be converted to a FPSO at some time in the future when the converters obtain a job for her. Until then the new buyers are letting Shell Australia continue to operate her.
