U.S. Sanctions Shadow Fleet Shipping Company for Russia Oil Price Cap Violations

According to OFAC, Hennessea Holdings Limited, a UAE-based shipping company, owns 18 vessels, including the *HS Atlantica*, which was involved in transporting Russian crude oil priced above the \$60 per barrel cap while using a covered U.S.-based provider after the price cap policy came into effect. Hennessea, established in late 2022 before the price cap came into effect, has acquired older tankers for shipping Russian crude oil and petroleum products, and its tankers have frequently visited Russian ports, the Treasury Department alleges.

Hennessea was designated under E.O. 14024 for operating in the Russian Federation's marine sector.

OFAC identified the following vessels, all of which are beneficially owned by Hennessea, as property in which Hennessea has an interest:

1. **ARISTO** (IMO 9327413)
2. **HAI II** (IMO 9259599)
3. **HS ARGE** (IMO 9299745)
