GENERAL VESSEL INFORMATION:

ConocoDu Pont+ Inc. has christened its first double-hulled oil tanker, the **PATRIOT**, as part of the company's plan, announced in April 1990, to replace all four of its tankers with double-hulled ships. The other three will follow by the end of 1993, the company said. <http://query.nytimes.com/> - January 10, 1992

The U.S. National Transportation Safety Board has urged Conoco Shipping Co. to improve its management of vessel movements during emergencies and its shoreside support for critical shipboard decisions. The recommendations came in an NTSB report on the Oct. 15, 1995, near-grounding of Conoco's 95,000-dwt tanker **PATRIOT** in the Gulf of Mexico during Hurricane Roxanne. The tanker was en route from Galveston to Dos Bocas, Mexico, when it came within 10 miles, or 3 hr, of grounding on the north www.ojg.com/currentissue/index.cfm 16 - Apr 21, 1997
