## SALES, TRANSFERS & RENAMINGS:

SABREWING	2004-	New Glory Shg. S.A., Panama

## GENERAL VESSEL INFORMATION:

Naikai Zosen Corporation (NZC) has completed the 48,200 DWT methanol carrier, **SABREWING** (HN: 678), for New Glory Shipping S.A. at the Setoda Works. The carrier is now mainly transporting methanol produced from natural gas in Trinidad and Tobago to North America or Europe. The **SABREWING** is the Panamax type vessel which can carry petroleum products and chemical types II and III and features a double hull construction that meets MARPOL requirements. All twenty cargo tanks are fitted with independent

hydraulically driven cargo pump. Five separated ballast tanks are built along each side of the ship. The No. 4 ballast tank of each side is equipped with a ballast pump, allowing ballasting of the remaining tanks.
