GENERAL VESSEL INFORMATION:

On the 13th May 2003 the new build aframax "**STENA CONFIDENCE**", 107,000 DWT, was delivered at the Saijo Shipyard, Imabari, Japan and immediately taken on Bare Boat Charter by StenaBulk AB, for operation by the Stena Sphere Company, Stentex (UK) Ltd, based in Sevenoaks, Kent, who in turn contracted Northern Marine Management Ltd for the full technical and personnel management of the vessel.

The vessel is intended to trade in the North West European area, however it has been classed for full world wide trading and indeed it's first voyage will be from Dampier in NW Australia carrying condensate to the US Gulf.
