GENERAL VESSEL INFORMATION:

2002: Vessel is part of new **SANTA R class** (4112 teu / 1300 reefer plugs) including 7 vessels totally. Chartered by P&O Nedlloyd after christening ceremony. (AK 2002)

2014: **Ship Finance International Limited (SFL) has announced the purchase of seven 2002-built, 4,100 teu container vessels from the German KG market.** This purchase is backed by 5.5 year time charter contracts to an as yet unnamed liner operator with purchase options at the end of the employments. Although SFL does not name the ships, **it is believed that the vessels involved in the transaction are the high-reefer, Claus Peter Offen controlled, Samsung-built** SANTA RAFAELA, SANTA REBECCA, SANTA RICARDA, **SANTA ROBERTA**, SANTA ROSANNA, SANTA ROMANA and SANTA RUFINA, which are **part of** a ten-ship series known as **the 'Albatros' Class**. These panamax vessels feature 1,300 reefer plugs, an exceptionally high number for ships of this size, and are in demand by carriers involved in reefer-intensive trades. They were initially built for long term employment on the Europe-ANZ services of P&O Nedlloyd. (Source: Alphaliner 09/2014)
