GENERAL VESSEL INFORMATION:

Chipolbrok is upgrading the cargo-handling ability of four more 22,000 dwt general cargo ships, and has contracted MacGREGOR to deliver sets of 150-tonne SWL twin cranes

MacGREGOR has been awarded further contracts for the delivery of the world's biggest twin cargo-handling cranes to Chinese-Polish Joint Stock Shipping Chipolbros. The company is looking to gear up four more of an 11-ship series of 1990s-built general cargo ships with MacGREGOR technology.

The four ships, JIA XING, WIENIAWSKI, CHONG MING & **SZYMANOWSKI**, will be retrofitted with the new twin cranes starting with the first ship in autumn this year and finalised with the last ship in October 2008.
