GENERAL VESSEL INFORMATION:

2024:

NGM Energy finishes the year with ship sales

This year has been slow for one of Greece's most active and successful S&P players, NGM Energy, run by the Moundreas family. December is proving different.

Numerous brokers note that the outfit has offloaded the 2014-built supramax *Porthos*, a Jiangsu Hantong Heavy-built bulker, for \$13m, with brokers noting that the buyer is Indonesian account Bahtera Adhigunar.
