**GENERAL VESSEL INFORMATION:**

**2024:**

**The FOLEGANDROS (5,908 teu) joins MSC**

MSC has recently added one more vessel to its portfolio, the 5,908 teu FOLEGANDROS ('Imabari Millenium') which it purchased earlier this year from Monaco-based International Maritime Enterprises SAM.

No price has been disclosed for this transaction. The vessel was recently delivered to its new owner and renamed MSC FOLEGANDROS VI. The ship is due to join in Shekou on 21 October MSC's 'Mexicas' service.

The FOLEGANDROS was built in 2001 in Japan by the Imabari Shipbuilding group, originally as the ROTTERDAM BRIDGE for Japanese tonnage provider Shoei Kisen who had arranged a long term charter of the ship to K Line. In 2010, the vessel was sold to International Maritime Enterprises and was subsequently traded on the charter market.

Among its principal characteristics, the FOLEGANDROS features a deadweight of 67,170 tons, a length of 278.99 m and a beam of 40.10 m. The ship is fitted with 500 reefer plugs.
